SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

Inhalation: Inhalation of dust or metal fume may cause Argyria, a blue-green discoloration of the skin, mucous membranes and eyes. Also, may cause irritation of the respiratory tract or metal fume fever with symptoms of fever, chills, nausea, chest tightness or metallic taste. If inhaled, remove from exposure, move to fresh air and seek immediate medical attention. Use mechanical ventilation or respiratory protection to avoid inhaling metal fumes.

Skin Contact: Localized Argyria may result from contact. Remove contaminated clothing. Thoroughly wash affected area with soap and water. Consult with doctor.

Eye Contact: May cause irritation. In the case of eye contact, flush with large amounts of water for at least 15 minutes and seek immediate medical attention.
Ingestion: If ingested, may cause generalized Argyria, and may irritate gastrointestinal tract. Seek emergency medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Exposure to dust or metal fumes may irritate respiratory system and result in metal fume fever.

4.3 Indication of any immediate medical attention and special treatment needed

6.1 Personal precautions, protective equipment and emergency procedures

6.1.1 For non-emergency personnel

Protective Equipment: Use appropriate personal protective equipment based on site conditions.

Emergency Procedures: Avoid breathing dust or metal fumes. Use adequate ventilation. Remove all ignition sources if dust is present. Note that dust and fine shavings may be flammable.

6.1.2 For emergency responders

Protective Equipment: Use appropriate personal protective equipment based on site conditions.

Emergency Procedures: Control ignition sources and use non-sparking tools when handling dust or finely ground turnings which may be flammable.

6.2 Environmental precautions

No special precautions for bulk solid material. Do not let dust or turnings enter drains.

6.3 Methods and material for containment and cleaning up

Sweep up or shovel bulk solid and store in sealed container prior to disposal/recycle. Avoid static discharge when collecting dust or fine turnings which may be flammable.
6.4 Reference to other sections

For disposal see Section 13.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling

Further processing of solid material may generate combustible dust or turnings. Provide adequate ventilation and routine maintenance to prevent the buildup of combustible dust. Implement control measures to reduce the generation of static discharge where dust is created.

7.2 Conditions for safe storage, including any incompatibles

**Conditions for Safe Storage:** Keep container closed when not in use. Store in cool, well ventilated space.

**Incompatibilities:** Acetylene, ammonia, oxidizers, hydrogen peroxide, strong acids and bases.

8.2 Exposure controls

8.2.1 **Appropriate Engineering Controls:** Provide local exhaust. Use good industrial hygiene practices. Keep dust and fume buildup to a minimum. Avoid static discharge where dust or turnings are generated.

8.2.2 **Personal Protective Equipment:**
Respiratory Protection: Respiratory protection is not required when handling bulk solid materials. Where nuisance dusts are generated, use N95 or type P1 (EN143) dust mask. Use air purifying cartridge respirator equipped with an N100, R100 or P100 filters when exposed to metal fumes.

Skin Protection: Wear leather or Kevlar gloves when handling metal stock to prevent cuts.

Eye Protection: Wear ANSI Z87.1 approved safety glasses with side shields.

8.2.3 Environmental exposure controls: Do not let product enter drains.
